

"Handclap" - revised

Somebody help you out cause you've been struggling in this city

I know

Too many troubles, all these problems got you losing control

You're like a friend to me, a luxury, my sugar and gold

I want to help you, every good night you're a hard one to help

Cause you don't even know

I can make your hands clap

Said I can make your hands clap

Somebody help you out cause you've been struggling in this city

I know

Too many troubles, all these problems got you losing control

You're like a friend to me, a luxury, my sugar and gold

I want your care and your affection when I'm holdin' you close

Cause you don't even know

I can make your hands clap

Said I can make your hands clap

Every night when the stars come out

Am I the only living soul around?

Need to believe you could help me out

Cause I'm in need of a friend right now

We could be dancing till the sun comes out

And when we wake we'd be the only sound

We could really use a friend right now

(and I can make your hands clap)

I can make your hands clap

(Turn it up)

I can make your hands clap

My heart is searchin' for your very best, don't ever deny
I'm like a stranger, don't want danger, all your wrongs and your
rights

Let's work together, help eachother, you're a good friend of mine

We can laugh, and we can dance, and we can have a good time

But you don't even know
I can make your hands clap
Said I can make your hands clap

Every night when the stars come out
Are we the only living soul around?
Need to believe you could help me out
Cause I'm in need of a friend right now
We could be dancing till the sun comes out
And when we wake we'd be the only sound
We could really use a friend right now
(And I can make your hands clap)

I can make your hands clap
I can make your hands clap
I can make your hands clap
So can I get a handclap?
