January 27<sup>th</sup>, 2016

Betsey Zbyszynski, Parent Teacher Club (PTC) President, welcomed the attendees and gave the floor to every committee representative to give updates of their activities.

## School Programs

---

- Reading Club – Ms. Pat
- CRAVE Art Program – Ashley Bruce
- Garden – Grant Ferrier

Ms. Pat described how the Reading Club started at McKinley. The club runs on Tuesdays for 40 minutes. Kids enter into the program being in 2<sup>nd</sup> grade under teacher recommendation and stay in the program –through 5<sup>th</sup> grade- as long as they do their duties: read chapter books and write a report about them. Ms. Pat gives incentives to the kids such as international coins, ice cream coupons and pillows. For the latter Ms. Pat would love to have volunteers to help her making the pillows (size 14 x 14).

Ashley explained a little about the program and acknowledged ASE volunteers for helping prepping materials and mounting art pieces. She asked for volunteers for mounting art pieces and for looking of places where to exhibit the artwork made by the students.

Grant reminded everybody that Gardening classes -led by Mindy Swanson- are part of the *Wheel* rotation offered to kids from Kindergarten to 3<sup>rd</sup> grade. He also commented that the products from the garden are not intended to be sold to fund raising purposes, and cannot be used in the cafeteria due to school district rules. They are harvested and given in school meetings, events, etc.
