TESTIMONIALS

Cindi H. - Mom of 3 - San Clemente, CA

You won't find a more fabulous piano teacher for your child! Macall immediately clicked with Isabelle, over the course of several years, Issy was playing songs from Turkish March to Poker Face! Highly recommended!

Lorraine K. - Mom of 4 - San Clemente, CA

Macall was an outstanding piano teacher and an even better role model for 3 of my 4 children. Macall related beautifully to a variety of ages, keeping interest high by suggesting the kids select some contemporary pieces of music. Lessons were fun and interest was fueled and inspired by Macall's personal love of piano. We all miss her dearly and recommend her piano instruction unconditionally.

Macall has taught my girls for several years. She was personable, professional, and very organized! She's enthusiastic and encouraging to all her students! She has a love of teaching and good ear for music! We enjoyed having her as a teacher and a friend. I highly recommend Macall to anyone wanting to begin a love affair with the piano..

Nancy B. - Mom of 3 - San Clemente, CA

My daughter started piano lessons with Macall when she was 6 years old and absolutely loved it. Macall made it fun while teaching good technic at the same time. I highly recommend Macall for piano lessons that your kids will love.
