STEAM EDUCATION

✓ **Design their own projects**

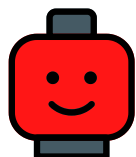

✓ **Build and test ideas**

✓ **Understand how key
engineering pieces work**

✓ **Learn about gear systems**

✓ **Learn collaboration skills**

✓ **Use critical-thinking
skills to solve challenges**

HAVE FUN WHILE LEARNING AND BUILDING

Students will follow along with stories about their mini-figure friends to complete building challenges. They'll practice important skills like designing, collaborating, and communicating.

BUILD WITH REAL ENGINEERING PIECES

Our special Lego Education kits include pieces you won't find anywhere else! Students use gears, pulleys, cams, and levers to make their projects spin, roll, and jump!

FUN, ENGAGING, AND EDUCATIONAL!

A smart and playful way to learn the fundamentals of S.T.E.A.M. (Science, Technology, Engineering, Art and Math) through hands-on building and design.
